

West Virginia Farm PAC 2022 Candidate Questionnaire

Name: Scott Nale

Senate/House District: 78

Party Affiliation: Republican

1. Do you support the 2022 constitutional amendment to do away with business & inventory/vehicle taxes? If yes, how should counties' budgets be balanced if the amendment is passed?

This is a complex issues that I'm not yet fully educated on. I'm researching the topic and look forward to input from the residents of my district. In general, I'm in favor of less taxes and the reduction of the government footprint.

2. Oil/gas development is important to West Virginia. Should West Virginia use "forced pooling" or "forced arbitration" to settle development issues? Yes or no? Why?

No, this process should not be implemented, unless we get into a national emergency situation. The use of government force to take away resources belonging to individuals is in opposition to the principals that our Country was founded on. Using government force to remove individual resources is a slippery slope that we shouldn't

3. How should non-consenting mineral owners be compensated for mineral development in West Virginia?

The conversation should continue until such time as all parties can reach agreement.

4. Do you support term limits? If so, how should the limits be applied to the Board of Public Works, the legislative branch of government, and Congress?

Yes I support term limits. Congress should be held to a similar standard as the limits they imposed on the executive branch. I would support a 12 year limit, but would be open to compelling arguments to adjust that number. Public service should be considered just that, not a career option.

OVER

5. Currently the West Virginia Oil/Gas Conservation Commission is composed of representatives from DEP and the oil/gas industry. Would you support expansion of the commission to include mineral owners or landowners? Yes or no? Explain why.

Yes, I would consider it important that all effected parties have a voice in the Commission.

6. Currently West Virginia produces approximately \$850 million in agricultural products each year. What actions should the State of West Virginia take to expand production and marketing of West Virginia agricultural products?

West Virginia should examine any legal barriers that exist regarding the growth and sale of potentially restricted products that would thrive in the West Virginia climate and mitigate or remove those barriers. Additionally, advertising those products to areas where they are not restricted may prove advantageous to the state's farmers.

7. What are the greatest challenges facing West Virginia and what steps would you support to meet those challenges?

Our greatest challenge is the constant loss of people. In the last decade West Virginia has lost 3.3% of it's population. This is not a trend that can continue. We have to build our infrastructure and job base to give our children a reason to stay. Additionally, we will need to focus on our existing population to get them back to work. This can be facilitated through State assistance of job training and education, including technical and trade schools.

This information is critical as West Virginia Farm PAC determines the organization's endorsements. Please include any additional information you wish. Thank you for completing this questionnaire. Attach a separate page for answers if necessary. Please return the form **NO LATER THAN March 14th** to: West Virginia Farm Bureau, 62 Farm Bureau Road, Buckhannon, WV 26201, by fax to 304-472-6554, or by email to steveb@wvfarm.org

WEST VIRGINIA RIGHT TO WORK COMMITTEE

2022 Candidate Survey

1. West Virginia's new Right to Work Law provides that no worker can be denied a job because he or she either joins or does not join a labor union. West Virginia's Right to Work Law guarantees that individual workers can freely choose for themselves whether or not to join or financially support a labor union.

WILL YOU OPPOSE ANY EFFORT TO WEAKEN OR REPEAL WEST VIRGINIA'S RIGHT TO WORK LAW?

YES NO

2. In some states, legislation has been introduced to force working men and women who have chosen not to join or support a labor union to pay union dues -- so-called "agency fees" -- to a labor union, or risk being taken to court or even fired.

WILL YOU OPPOSE ALL ATTEMPTS TO FORCE WORKERS IN WEST VIRGINIA TO PAY UNION DUES OR "FEES" TO AVOID BEING SUED OR FIRED?

YES NO

3. West Virginia law currently prohibits so-called "project labor agreements" (PLAs) on state construction projects. PLAs discourage non-union companies from bidding or working on state-funded projects. These agreements usually require bidders to have unionized employees or agree to pay union scale wages which, studies show, lead to more spending and higher taxes.

IF ELECTED, WILL YOU OPPOSE ANY EFFORT TO REPEAL WEST VIRGINIA'S BAN ON "PROJECT LABOR AGREEMENTS," WHICH DISCRIMINATE AGAINST COMPANIES WHOSE EMPLOYEES DON'T PAY DUES TO A UNION BOSS?

YES NO

Candidate Name: Mr. Scott Nale

Office Seeking: WV House of Delegates

Email: Nale4House@gmail.com

Questions 1-5 are intended to help us get to know you. Brief answers are fine and campaign materials are welcome

Questions:

1. Tell us a little about yourself and why you are seeking office. We welcome the inclusion of any of your campaign literature.

2. West Virginia is facing many challenges. What do you consider the most important and critical challenges facing our state?

3. West Virginia is experiencing an economic recovery as we emerge from the COVID-19 pandemic. What will you support to continue, and accelerate, this economic recovery?

4. What steps do you believe the West Virginia Legislature can take to make West Virginia more attractive to families looking to relocate here?

5. As a follow-up to the previous questions, are there any issues you feel could impede economic development, make West Virginia less attractive to potential jobs and employees and therefore should be avoided?

6. West Virginia became the 26th state to enact a Right-to-Work law in 2016. If a bill to repeal this law made it to the floor, how would you vote?

- I would vote to keep Right-to-Work
- I would vote to repeal Right-to-Work

7. West Virginia's students are the talent pipeline for the future. Unfortunately our state continues to face significant challenges in education outcomes. What are your ideas for improving pre-K through 12th grade student achievement? How can West Virginia attract and retain top quality teachers? Are you open to reforming Chapters 18 and 18A of the West Virginia Code, which currently place strict parameters on how public education is delivered?

8. Would you support allowing West Virginia counties to have additional flexibility in increasing teacher pay?

- Yes
- No

9. Regardless of your personal feelings on an issue, do you believe it is the role of the West Virginia Legislature to dictate the employment practices of private employers in West Virginia?

- Yes
- No

10. Do you support creating a West Virginia that is more diverse and inclusive?

- Yes
- No

11. Would you oppose legislation that could lead to discriminatory practices in West Virginia?

- Yes
- No

12. Could you support legislation to provide tax relief to assist in repayment of student loans?

- Yes
- No

13. Would you support prefiling of bills/legislative initiatives for complex issues to allow for thorough review by interested parties prior to the Legislature convening?

- Yes
- No

Tell us a little about your campaign. How many votes will you need to win? How much fundraising is needed to win?

Would you be available for an interview by phone or in person?

Thank you for taking the time to complete this questionnaire. You may FAX it to (304) 342-1130 or scan and e-mail it to Brian Dayton at bdayton@wvchamber.com. Completed surveys may also be mailed to:

2022 West Virginians for Life Legislative Candidate Survey

West Virginians for Life (WVFL) believes that unborn children should be protected by law, and that abortion should be permitted only when necessary to prevent the death of the mother. Under what circumstances, if any, do you believe that abortion should be legal?

- (a) [checked] Only to prevent the death of the mother
(b) [] To prevent the mother's death, in cases of incest committed against a minor, and in reported cases of rape.
(c) Other: (please explain)

(1) Do you support the reversal of the Roe v. Wade and Doe v. Bolton decisions, so that elected legislative bodies may once again protect unborn children by limiting or prohibiting abortion?

YES [checked] NO []

ABORTION

UNBORN CHILD WITH DOWN SYNDROME PROTECTION AND EDUCATION ACT

(2) In West Virginia, families who receive a diagnosis of disability in their unborn children are under tremendous pressure to abort their babies. The Unborn Child with Down Syndrome Protection and Education Act would offer care and support to these families in place of abortion. Would you vote for a bill to outlaw abortions done for the sole purpose of killing a child diagnosed with Down syndrome or some other disability?

YES [checked] NO []

TAX FUNDING OF ABORTION

(3) Would you vote to prevent the use of tax funds for abortion other than to prevent the death of the mother?

YES [checked] NO []

PREGNANCY HELP CENTERS

4) Would you vote for legislation to promote and extend the work of the pregnancy help centers in the state of West Virginia?

YES [checked] NO []

If the Supreme Court reverses Roe v. Wade and Doe v. Bolton in order to return authority for abortion law to the state legislatures, which of the following bans on abortion would you support:

- (a) [checked] At conception when life begins.
(b) [] At 8 weeks when the heart begins to beat.
(c) [] At 15 weeks following the lead of the Mississippi law (the case Dobbs vs. Jackson Women's Health Organization)

NOTE: In every question below, a "yes" response indicates agreement with the position of WVFL.

ROE V. WADE

In its 1973 rulings in Roe v. Wade and Doe v. Bolton, the U.S. Supreme Court created a "right to abortion" for any reason until "viability" (into the sixth month), and for any "health" reasons - including "emotional" health - even during the final three months of pregnancy.

HELP FOR THE

TERMINALLY-ILL AND DISABLED

AMENDMENTS TO LIVING WILLS LAW

(5) Would you vote for a bill to correct the WV Code on Living Wills, so "vegetative state" patients are not dehydrated to death; so persons considering signing a Living Will are told clearly that CPR, breathing machines, dialysis, and feeding tubes will NOT be provided; and requiring that ORAL food and fluids, such as may be taken by spoon or straw, will always be offered if they are desired and can be safely tolerated?

YES NO

HEALTH CARE RATIONING

(6) Would you vote to oppose any legislation that would impose rationing that intentionally denies treatment on the basis of disability or "quality of life" of those denied treatment?

YES NO

ASSISTED SUICIDE

(7) Would you oppose the legalization of physician-assisted suicide or euthanasia through lethal prescription or other lethal means?

YES NO

PROTECTION OF HUMAN EMBRYOS

West Virginians for Life supports the highly successful Adult Stem Cell Research, which obtains stem cells from ethical sources such as umbilical cord blood and adult tissues.

(8) Will you vote for measures to protect living human embryos from being used for medical experiments that would harm or kill them, including so-called "embryonic stem cell research" that would require the killing of human embryos, regardless of the method used to create these human embryos?

YES NO

(9) Would you support a similar legal prohibition on all human cloning including the creation of human embryos by cloning?

YES NO

CAMPAIGN ISSUES

(10) Do you oppose legislation that restricts the distribution of non-partisan information concerning candidates and where they stand on the issues?

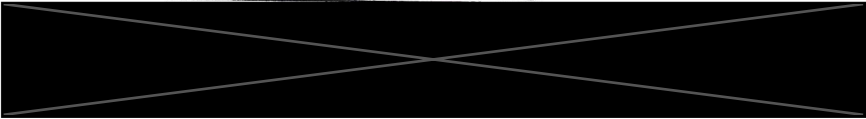

YES NO

(11) Do you support a pro-life plank in your party's platform?

YES NO

PEIA

PEIA remains an area of concern for education employees. The PEIA Task Force developed recommendations for a long-term fix to the plan. We all know one of the main components to any fix is proper funding. In the past, lack of funding for the plan has led to increased premiums and costs being passed on to plan participants. Too much of the participants personal income is spent for costlier drugs, higher deductibles, and increased out-of-pocket costs. The problems with PEIA contribute to the state's inability to recruit and retain employees in our school system. Continuing to finance PEIA through the rainy-day fund and political promises does not create stability or confidence in the plan. WVEA supports legislation going forward that would require the state to contribute no less than 80% of all costs of PEIA and the employees no more than 20%. This money would come from the general revenue fund and provide a more secure funding source for the future.

This is a complex issues that I'm not yet fully educated on. I'm researching the topic and look forward to input from the residents of my district. In general, I'm in favor of less taxes and the reduction of the government footprint.

Do you support funding PEIA in the manner described in the paragraph above? Yes No

Comments on PEIA: _____

No, this process should not be implemented, unless we get into a national emergency situation. The use of government force to take away resources belonging to individuals is in opposition to the principals that our Country was founded on. Using government force to remove individual resources is a slippery slope that we shouldn't

The conversation should continue until such time as all parties can reach agreement.

SALARY

The salaries of our education employees remain uncompetitive. Even with a proposed 5% pay increase and a 2.5% bonus, our salaries will be far short of our surrounding states. The latest rankings show that teachers in Maryland earn an average \$74,514, Pennsylvania teachers \$71,281, Ohio teachers \$61,687, Kentucky teachers \$54,384, and Virginia at \$59,267. However, West Virginia falls behind each of our neighbors at \$50,261.

In addition, during the 2020 school year there were 540 positions filled by uncertified professionals. Now the total is nearly 1,000 vacancies that are currently unfilled. West Virginia must make a commitment to preparing our students to succeed in the world. A key component of that plan is highly qualified employees. Without adequate pay, college students will not pursue a career in education, nor will educators stay in the profession long term. West Virginia must make a multi-year commitment to make salaries competitive with surrounding states.

Do you believe that the pay of our education employees must be increased to a level competitive with our surrounding states? Yes No

If elected, what are you willing to do to ensure a multi-year salary increase for educators passes into law?

- Sponsor a bill
- Talk about the importance of a salary increase to other legislators
- Push the salary increase in caucus meetings and in meetings with the governor/leadership
- Push leadership/committee chairs to place salary increase bills on a committee agenda
- Help find sources of revenue to fund the increase, including raising taxes if necessary

Comments on salary increases: _____

EMPLOYEE RIGHTS

WVEA supports fair and understandable hiring procedures for public school employees. This includes having hiring criteria that assures the most highly qualified and most senior candidates are selected for open positions. We want laws about hiring to be predictable, equitable, and assure that employees are treated fairly and with dignity. The legislature must safeguard a fair, rational, and dependable employee grievance procedure. In addition, laws protecting duty-free lunches, class-size limitations, and planning periods should be defended and enhanced at every opportunity.

Do you agree to protect the employee rights outlined in WV Code 18-18A? Yes No

There are individuals who want to open sections of 18-18A in order to remove outdated code. Those outdated sections of code are not causing problems. Many people believe the discussion regarding updating code is just an excuse to open up those sections of code and diminish the rights of education employees. Based on past experience, WVEA's position is to oppose the clean-up language in 18-18A.

Will you agree not to open sections of 18-18A to clean up the antiquated language? Yes No

Comments on employee rights: _____

TAX REFORM AND EDUCATION FUNDING

WVEA opposes any tax reform effort that would benefit business interests while increasing the tax burden on working people and retirees. We want a fairer, simpler tax system, but we strongly oppose any attempts to reduce the state’s investment in public education, teachers, or education support professionals. Spending money on education (both pre-k to 12 and higher education) will improve West Virginia’s workforce and get more people working in the state. More education funding will also entice businesses to set up shop in the state. Now is not the time to look to tax cuts to spur economic growth.

- 1. Would you vote for tax cuts? Yes No
- 2. Would you make it a priority to increase revenue during the next two legislative sessions?
 Yes No

If so, what measures would you support to increase needed revenue for public education?

- 3. Do you support a reduction in the state income tax? Yes No
- 4. Do you support the constitutional amendment to lower the tax on manufacturing inventory and machinery? Yes No

Comments on tax reform: _____

2022 Candidate Survey

Please fill out the survey below to be considered for endorsement by Young Americans for Liberty, Inc. Feel free to write an explanation and use the margins as needed. Any blank answers will be marked in the negative. After completion, please scan and email to survey@yaliberty.org. For privacy and disclosure notice, please see disclaimer on page 7.

TAXES AND SPENDING

1. How would you decrease the overall tax burden in your state?

Through growth in the work force the State would be able to lower tax rates and see more income at the same time. I will work to bring more jobs to the State and see less of our youth move away. Additionally, we need to get West Virginians back to work and would support "hand up" programs to replace the current "hand out" policies in place.

2A. Would you ever vote for a budget that increased spending over the prior years' state budget?

- Yes
- No

If the State is growing as proposed above, there would be increased tax revenue with less individual tax burden. As long as that was the case, I could see an increase in spending being acceptable, if the increase was for improved infrastructure to benefit the State.

2B. Which of the following projects would you vote to use state funds to bring to your community? Check the **left** box if you support funding or the **right** box if you oppose funding:

- | | |
|---|--|
| <input checked="" type="checkbox"/> <input type="checkbox"/> A new school for at-risk youth | <input checked="" type="checkbox"/> <input type="checkbox"/> Charging stations for electric cars |

| <input checked="" type="checkbox"/> <input type="checkbox"/> A new senior center | <input checked="" type="checkbox"/> <input type="checkbox"/> A new community center |

3A. Below is a list of various tax policies. Check the **left** box if you support raising or creating this tax, check the box in the **middle** if you support keeping it at the current rate, or check the **right** box if you oppose this tax and will fight to lower and/or eliminate it.

3B. Would you support or oppose a "tax swap" that was a trade-off between cutting one tax and raising another? Why?

If I would support a tax swap, I would need to assure that the tax being replaced can not be reinstated or raised after the swap occurs. We are double taxed enough and that needs to be halted. I prefer a flat sales tax and reduction/deletion of all other taxes.

ENERGY CONSUMER PROTECTION PLEDGE

I, Scott Nale, pledge to support "all-of-the-above" energy and environmental policies that ensure households and businesses in communities across my state have access to affordable, reliable energy to help meet their basic needs. Regardless of political affiliation or income level, it is important to stand behind energy development that fuels our homes, the economy, and aids in national security, all while sustaining our environment - because we can, and must do both.

WHAT IS THE ENERGY CONSUMER PROTECTION PLEDGE?

The *Energy Consumer Protection Pledge* is a way to express your support for “all-of-the-above” energy and environmental policies that benefit American families, farmers, and small businesses across your state.

The Pledge was designed by Consumer Energy Alliance (CEA) so consumers can easily identify candidates and elected officials who believe:

- Families, especially those living at or below the poverty line, and businesses need access to affordable, reliable energy;
- Comprehensive energy and environmental policies will encourage both responsible energy development and conservation of our environment; and
- American innovation and investment in our workers will allow us to achieve energy independence.

We at CEA believe in supporting responsible energy development and a healthier environment - the two cannot continue to be partisan issues. And, like most Americans, CEA believes that just saying “no” is not a solution to ensure access to affordable, reliable energy for our families, our businesses and our communities.

Join us as we work to bridge the partisan divide in an effort to sustain a balanced energy future, while also safeguarding our environment for generations to come.

Who is Consumer Energy Alliance?

Consumer Energy Alliance (CEA) is the leading U.S. consumer advocate in support of affordable, reliable energy for working families, seniors, and small businesses across the country.

is a relatively straight forward process. Would you support legislation that allowed for the online renewal of these licenses in order to make the process more convenient for citizens?*

Explanation (if desired):

9. The firearm industry is greater than a 20 billion dollar a year industry in the US. As a West Virginia legislator, would you actively solicit firearm manufacturers within states that are hostile to the rights of citizens owning firearms, to encourage them to relocate manufacturing facilities to West Virginia through various tax incentives or other enticements?*

YES

Explanation (if desired):

10. The West Virginia Second Amendment Preservation and Anti-Federal Commandeering Act was a crucial

YES

step toward preventing West Virginia law enforcement from being co-opted to carry out federal gun control policies. Would you support legislation strengthening this bill to include all state agencies and employees?

***:**

Explanation (if desired):

11. West Virginia has the highest per capita rate of military service in the country. Additionally, those citizens 18-22 years old are the demographic most likely to be the victim of a violent crime.

Q2

The US Supreme Court will decide Dobbs v. Jackson Women's Health Organization this summer, which some have speculated may overturn Roe v. Wade. If there were no Constitutional protections for abortion, what do you think West Virginia's abortion policies should be?

Protection should be in place for all human life. Science says life begins at conception. Abortion should be a medical necessity for the protection of the mother's life.

Q3

Several West Virginia municipalities have passed ordinances that expand the definition of racial discrimination to include discriminating against traditional or natural hair textures and styles. Would you support expanding this protection statewide? Why or why not?

Protection should be in place for all human life. No one should be discriminated against for any reason. How a person looks or what they believe should have no impact on their quality of life.

Q4

Many states have created laws that seek to limit the teaching of "divisive concepts" or "critical race theory". West Virginia narrowly missed passing a similar law during the 2022 Legislative Session. What is the value or harm in teaching these topics and what role should the legislature play in determining this curriculum?

This is a very complex issue. No doubt there have been poor decisions through the history of our Country and those should be taught in schools. Rural West has similarly suffered, oppressive policies over the years have not only targeted once race. We should teach policies that build togetherness in our communities instead of division.

Q6

Recently a revival was held at schools in Cabell and Wayne counties. The Legislature has, in recent years, passed laws to allow teaching the Bible in public schools and allowing for religious drug-prevention programs to operate in schools. What do you think the role of religion in public schools should be and why?

I have no issue with non-required religions activities in school. A well rounded community should be encouraged in West Virginia, however, this should be universal. Meaning all belief sets should be equal footing, outside of the regular curriculum. Parents should also be given a voice to decide what their children can participate in or avoid.

Q7

The West Virginia Senate recently unanimously adopted a resolution stating that West Virginia is prepared to welcome Ukrainian refugees. Critics have pointed out that the Legislature has recently considered legislation what would make things more difficult for refugees and immigrants to settle in West Virginia. Should West Virginia welcome refugees and immigrants? If no, why not? If yes, what can the state do to support these communities?

Refugees and legal immigrants should be welcomed and encouraged in West Virginia. As a state rapidly losing population, we need to encourage population growth and the new ideas these people often bring with them. Work and language education programs can assist these people to integrate in our community.

Q8

There is increasing tension with communities of people who are unhoused or face housing insecurity. Police breakups of encampments are common, and municipalities have shown growing opposition to low-barrier housing and recovery housing. How would you address community concerns while protecting the rights of unhoused people?

This is a difficult issue and one that gets worse as we watch inflation soar. I would advocate for hand up programs to potentially help with job skills and housing for these people to help reintegrate them into the community.

Q9

Police violence has been in the forefront of national headlines for several years. Some propose more civilian oversight of law enforcement through civilian review boards that could review incidents and policies. Others view these boards as "anti-police" and point out that civilians are ill-equipped to understand the nature of police work. Do you support the use of civilian review boards? What other steps, if any, should the state take to provide transparency and accountability for police?

No, I do not support civilian review boards. I would encourage body cams to help adjudicate offenses. Trusting the legal system to bring charges if evidence shows the need.

Q10

Jails in West Virginia are above capacity and are bankrupting some counties. Prisons are understaffed, making them dangerous for residents and staff alike. What steps, if any, should West Virginia take to address these issues?

Quit housing out of state criminals. Reduce sentences and raise fines for victimless crimes.

Q11

Currently, people who are incarcerated or on probation and parole for a felony conviction are unable to vote. The West Virginia Senate Judiciary Committee passed a bill that would have expanded that right to people who are on probation and parole. When, if ever do you think people should lose their right to vote? When, if ever should that right be restored?

I'm fine with the law as it stands, incarcerated or on probation and parole for a felony conviction seems enough. People make mistakes and the justice system punishes them, we do not need to extend the restrictions. Once the debt to society has been paid, the voting rights should be restored.

National Pro-Life Alliance Candidate Survey 2022

Backgrounder & Explanation of Questions

1. Thousands of underage girls, faced with an unplanned pregnancy, currently fall prey to the propaganda efforts of the abortion industry and terminate their baby, often without the benefit of discussion and counseling, or even the prior knowledge of the girls' parents.
2. Often, the decision to obtain an abortion is made hastily and under duress. Under current federal law, abortion clinics are not even required to inform a woman about the medical and psychological risks involved in destroying her unborn child.
3. Studies show that up to 78% of the mothers who see a sonogram of their baby ultimately reject abortion and choose life. That's why, although abortionists use sonograms themselves to perform abortions, they typically refuse to show the image to the mother unless forced to.
4. Female victims of abortion outnumber baby boys by as high as a three-to-one margin -- a statistic ignored by many self-styled "feminist" pro-abortion advocates.
5. Every fiscal year, countless efforts are made by the pro-abortion lobby and their political allies to insert abortion-funding language into state budgets nationwide.
6. ObamaCare forces states to use taxpayer funds to cover abortions by cynically classifying them as women's "health care services." States will be required to use state and federal funds to provide abortions unless they enact state legislation to prevent it.
7. The Clinton Administration rushed approval of RU-486 by skipping normal testing and approval procedures. It has already been used to kill millions of unborn children. Now the abortion lobby is seeking to expand the lethal drug's use by mailing it to pregnant mothers to self-administer after a brief virtual or webcam meeting. In this way, abortions can be done quickly and secretly without any other counsel.
8. "Dilation and extraction (D&E) abortion" is perhaps the most horrific form of infanticide available under the law. During a D&E or dismemberment abortion, the abortionist tears the unborn baby completely apart before removing the tiny body piece by piece.
9. A Human Life Amendment to the U.S. Constitution, once ratified by enough state legislatures, would permanently protect all unborn children from dying at the hands of abortionists.
